Hazardous Material Accident

TEACHERS IN THE VICINITY OF SPILL

- Report the situation immediately to the administration and block entrance to the area.
- Remain calm.
- Follow directions for emergency procedures as outlined by the chemical manufacturer.
- Do NOT attempt to clean up anything. The administration will make arrangements for clean up of the spill.
- If anyone experiences shortness of breath, dizziness, headache, or other abnormal physical conditions, immediately leave the area.
- If instructed by the manufacturer or by the administration, evacuate the area.

TEACHERS NOT LOCATED IN THE VICINITY OF THE SPILL

- Remain calm.
- Hold students in classroom, unless otherwise instructed.

IF OUTSIDE

- Move upwind away from spilled material or indoors.
- Contact administration immediately.
