

## **Instruction**

### **Access to Electronic Networks – Staff and Students**

Electronic networks, including the Internet, are a part of the District's instructional program and serve to promote educational excellence by facilitating resource sharing, innovation, and communication. The Superintendent shall develop an implementation plan for this policy and appoint system administrator(s).

The School District is not responsible for any information that may be lost or damaged, or become unavailable when using the network, or for any information that is retrieved or transmitted via the Internet. Furthermore, the District will not be responsible for any unauthorized charges or fees resulting from access to the Internet.

#### **Curriculum and Appropriate Online Behavior**

The use of the District's electronic networks shall: (1) be consistent with the curriculum adopted by the District as well as the varied instructional needs, learning styles, abilities, and developmental levels of the students, and (2) comply with the selection criteria for instructional materials and library resource center materials. As required by federal law and Board policy 6:60, *Curriculum Content*, students will be educated about appropriate online behavior, including but not limited to: (1) interacting with other individuals on social networking websites and in chat rooms, and (2) cyber-bullying awareness and response. Staff members may, consistent with the Superintendent's implementation plan, use the Internet throughout the curriculum.

The District's electronic network is part of the curriculum and is not a public forum for general use.

#### **Acceptable Use**

All use of the District's electronic network must be: (1) in support of education and/or research, and be in furtherance of the goals stated herein, or (2) for a legitimate school business purpose. Use is a privilege, not a right. Students and staff members have no expectation of privacy in any material that is stored, transmitted, or received via the District's electronic network or District computers. Any material that is stored, transmitted, or received via the District's electronic network or District computers, including files deleted from a user's account but not erased, are owned and controlled by the School District. The District provides electronic communication to aid staff members in fulfilling their duties and responsibilities, and as an educational tool. General rules for behavior and communications apply when using electronic networks. The District's administrative procedure, *Acceptable Use of the District's Electronic Networks*, contains the appropriate uses, ethics, and protocol. School officials will not intentionally inspect the contents of electronic communication or downloaded materials without the consent of the sender or an intended recipient, unless as required to investigate complaints regarding electronic communication or downloaded material that are alleged to contain material in violation of this policy or the Authorization for Electronic Network Access, or unless as required to investigate a complaint that the sender or intended recipient has violated District policy as contained in this Board Policy Manual. Electronic communications and downloaded material, including files deleted from a user's account but not erased, may be monitored or read by school officials.

#### **Internet Safety**

Each District computer with Internet access shall have a filtering device that blocks entry to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as

defined by federal law and as determined by the Superintendent or designee. The Superintendent or designee shall enforce the use of such filtering devices. An administrator, supervisor, or other authorized person may disable the filtering device for bona fide research or other lawful purpose, provided the person receives prior permission from the Superintendent/Designee.

The Superintendent or designee shall include measures in this policy's implementation plan to address the following:

1. Ensure staff supervision of student access to online electronic networks,
2. Restrict student access to inappropriate matter as well as restricting access to harmful materials,
3. Ensure student privacy, safety, and security when using electronic communications,
4. Restrict unauthorized access, including "hacking" and other unlawful activities, and
5. Restrict unauthorized disclosure, use, and dissemination of personal identification information, such as, names and addresses.

#### Authorization for Electronic Network Access

Each staff member must sign the District's Authorization for Electronic Network Access as a condition for using the District's electronic network. Each student and his or her parent(s)/guardian(s) must sign the *Authorization* before being granted unsupervised use.

All users of the District's computers to access the Internet shall maintain the confidentiality of student records. Reasonable measures to protect against unreasonable access shall be taken before confidential student information is loaded onto the network.

The failure of any student or staff member to follow the terms of the *Authorization for Access to the District's Electronic Networks*, or this policy, may result in the loss of privileges, disciplinary action, and/or appropriate legal action.
