

**Belleville Township High School District #201**  
**eLearning Program in Lieu of Emergency Days (2025-2026 SY)**

**General Information:**

- The decision to utilize an eLearning day in lieu of an emergency day will be announced by 6:00 am through the District communication systems.
- Students are encouraged to bring their school-issued computers home daily, but particularly if weather conditions are questionable.
- Staff are encouraged to bring any necessary work, computers, or equipment home the day prior, if weather conditions are questionable.
- This plan allows the District to eliminate the need to lengthen the school calendar due to the use of emergency days. If conditions arise quickly and a decision can not be made by 6:00 am, a traditional emergency day may be used.
- Families should contact [elearning@bths201.org](mailto:elearning@bths201.org) if their child has problems logging in to a digital platform, accessing assignments, or with any other concerns they are experiencing with the eLearning program.
- Daily attendance will be taken electronically through StudentVue on eLearning days that do not include live meetings and by each classroom teacher on days that do include live meetings.
- Activities, practices, and rehearsals which occur outside of the normal school day will be addressed on a case by case basis when an eLearning day is confirmed.

**Belleville East, Belleville West, and District #201 Alternative Day School:** ● In the event an eLearning day is announced, teachers will utilize Google classroom to communicate and provide instruction to their students. Communication through district e-mail is acceptable. Daily assignments and learning activities will be posted for students by 10:00 am.

- In the event that a second consecutive eLearning day is announced, classes will meet live with the following time allocations:
  - 1st Hour - 8:30-9:00
  - 2nd Hour - 9:15-9:45
  - 3rd Hour - 10:00-10:30
  - 4th Hour - 10:45-11:15
  - 5th Hour - 11:30-12:00
  - 6th Hour - 12:15-12:45
  - 7th Hour - 1:00-1:30
- If additional consecutive eLearning days are needed, classes will meet live each day following the schedule above.
- Teachers will be available to students via email and Chat from 8:30 am -1:30 pm on each school day that classes do not meet. Within that time, teachers should respond to all communication from students and parents within 60 minutes. Communication received after 1:30 pm may not be responded to until the next school day.

- Lessons generally equivalent to a class session will be provided to students daily. Due dates for all assignments will be communicated to the students along with the lesson. While it may not be possible for the lessons to mirror what would be presented in class, all assignments should be relevant and manageable. In the event a student experiences technical difficulties, that should be communicated to the teacher at the earliest possible opportunity and due dates will be adjusted accordingly.
- Students who receive accommodations through special education or 504 plans will be provided with accommodations equivalent to those outlined in their IEP or 504 plan. Special education teachers and case managers will work with general education staff to determine the appropriate accommodations as needs arise. Special education case managers will contact students to determine the appropriate method for providing assistance during the assigned work time. Help can be provided via email, telephone, Remind, Class Dojo, and/or Google Meets.
- Speech therapists and other related service providers will contact students/parents to arrange a suitable home-based program. As appropriate, services may be delivered via Google Meet.

**District #201 Night School:**

- The night school program will follow the same procedures as listed above, however, night school teachers will be available via email and Chat during their regularly scheduled night school class session in order to answer student questions.

**Homebound and Intensive Services:**

- Teachers will contact students to determine the appropriate method for providing assistance during the assigned work time. Help can be provided via email, telephone, and/or Google Meets.
